Upper Salmon Restoration Services Directory

Salmon Valley Stewardship , Lemhi County Economic Development Association and Custer Economic Development Association has worked together to provide the Upper Salmon region with a Restoration Services Directory. All three organizations work to develop strong communities, economic stability and opportunities for both counties.

Lemhi and Custer Counties have taken advantage of the ability to work off of the land for decades. Not only are there financial benefits that come with restoration work, but also the intrinsic value is immeasurable. The Restoration Services Directory will act as an opportunity for all companies and outfitters who would like to be listed as a resource for contractors.

Please contact Salmon Valley Stewardship if you are interested in listing your company in our Restoration Services Directory.
