Attention ladies! This original piece is a must-have for any lady who loves her jewelry! The unique screen-like material, which by the way is framed with reclaimed white oak wood, makes it simple to securely hook your earrings so they never get lost again. But wait there’s more! An old-fashioned ladle is there to hold your rings and miscellaneous jewelry. Your jewelry will be artfully displayed in this rustic piece, whether you want to hang it on the wall, or set against your vanity mirror.
